ReEmployAbility and Maplytics team up for efficient "Return to Work Solutions" with optimized routing to Area of Service.

MAPLYTICS™ by **inoGiC** innovative logic

From the first correspondence, our experience with the Maplytics team has been a pleasure. The Maplytics Team is friendly, knowledgeable and responsive, and they were committed to ensuring their tool met my business needs.

In summary –

Big fan of @Maplytics Auto Search on form load!

Increased visibility with zero extra effort added measurable value in less than a week.

- Abby Torres, ReEmployAbility

Company Overview

About ReEmployAbility

ReEmployAbility provides simple, fast, safe return to work solutions to help control the rising costs of workers' compensation and non-occupational disability while positively influencing the lives of injured workers nation-wide.

Our proprietary return to work program, Transition2Work, offers employers a cost-effective solution to modified light duty assignments and reduces workers' compensation and non-occupational disability claim costs while giving the injured worker time to heal.

The Transition2Work program utilizes local not-for-profit partners to find light-duty opportunities, benefitting injured workers' community and local philanthropic goals.

ReEmployAbility®

Industry: Insurance

Specialties: Workers' Compensation, Disability Solutions, transitional employment

Business Challenge

- Our processes at ReEmployAbility require a robust mapping solution to help map the most efficient route for marketing and travel, plot and expand our national not-for-profit database, and most importantly, map the most efficient route to light duty assignments for the injured workers in our program.

- We are committed to securing light duty assignments that are close to the injured workers' home and comparable to their normal daily commute.

- A reliable mapping solution is an integral part of our return to work program process
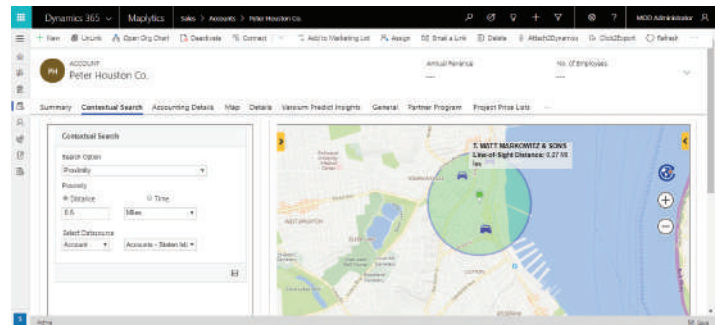

Conclusion

ReEmployAbility

Maplytics Auto Search on form load has increased visibility with zero extra effort added measurable value in less than a week. The smart features in the Maplytics tool have made our search process faster and easier for users, saving hours of employee time each week in both our Operations and Sales departments.

Why Maplytics

- The smart features within Maplytics allow our organization to make smart business decisions and automate multiple aspects of our business processes.

- Features such as automated driving directions, auto search on form load, and custom icons based on record criteria help our team to deliver the best possible outcomes efficiently and accurately for our customers.
